

WHERE IS IT ? The Quest For The 10TH Island

THE GAME

You (**PLAY'R**) have to find a 3x3 pattern (**FINDIT**) in a large game area. Warning you have a time limit !

You have 3 lives (timer) to find a maximum of right patterns.

There are 10 levels and 10 rounds per level. At the end of the 10th round, you'll access to the CHALLENGE STAGE.

Remember : Speed and Observation skills will be essential !

GAME MODE

ARCADE MODE

Do your best while playing one of these 4 modes : Easy - Normal - Hard and Mix.

STORY MODE

Hounded by Drühl, you have to help Reko to return on his planet by flying through an archipelago composed of 10 islands...

There are only 9 known islands. Nobody knows where the 10th is !

To discover it, you will have to progress through the 9 islands in which the difficulty will increase !

Reko is counting on you !

CONTROLS

MOVES : Arrow keys or joystick

ACTION : Space or Fire1

PAUSE : Esc or Fire2 (if you had a 2 buttons stick :))

PASSWORD

During the STORY MODE, each time you'll fly to another island, you'll get a new PASSWORD that helping you in your quest ;)

SCORES

It depends of how long you take to find the right pattern.

During the CHALLENGE STAGE, each time you find the right pattern, your score will be : **100 + remaining time**

At the end of the Quest, a bonus will be added to your score.

This bonus is **number of PERFECTs x 1000**

EXTRA TIMER

During the CHALLENGE STAGE, if you make a PERFECT, you'll get an extra timer. Another extra timer every 5000pts.
