MSX

Welcome to the high-tech world of MSX. Now that you've got your computer, what are you going to do with it? Well, there's a great choice. Educational programs are available to help children learn. Business programs can make you more efficient. There are languages and utilities for the

computer buffs. And, of course, there are games – lots of games – ranging from mind-bending adventures to micro bending arcade games. Most are available in inexpensive tape form, while others come on handy cartridges where the program runs straightaway. Have fun!

AACKOBASE IDS by SILVER SOFT

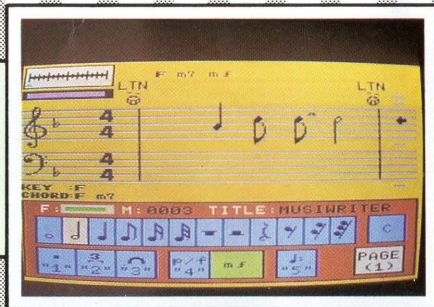

This database is supplied on both 3.5 inch disc and cassette, with excellent documentation. It's a professional product, and especially useful for holding names and addresses..... **£39.95**

SEE PAGE 18

PSG MUSICWRITER by RITTOR MUSIC

This program pushes the sound chip in your micro to its limits. A wide variety of sounds can be created, and tunes composed—a musical version of a word processor..... **£24.95**

SEE PAGE 18

PITFALL II by ACTIVISION

One for the intrepid explorer as you investigate a labyrinth of caverns at arcade speed. As you move through the 128 colourful screens watch out for scorpions, condors, eels and deadly frogs **£11.99**

A & F

CHUCKIE EGG

A classic platform-type game. You have to be nimble as you help Hen House Harry hop from level to level collecting his eggs. But watch out for the killer hens and the infamous Big Bird.....

£6.90

ACTIVISION

RIVER RAID

See how far you can get up the enemy river in your powerful jet plane. There are plenty of ships and helicopters to destroy on your way through the 60 stages, but be careful not to run out of fuel.....

£11.99

H.E.R.O.

Brilliant graphics show part of a maze of tunnels, full of dangerous creatures and red hot walls, which you must avoid in your attempt to rescue trapped miners, armed only with a few sticks of dynamite.....

£11.99

PITFALL II

One for the intrepid explorer as you investigate a labyrinth of caverns at arcade speed. As you move through the 128 colourful screens watch out for scorpions, condors, eels and deadly frogs.....

£11.99

BEAMRIDER

The energy beams zoom into the distance. As you ride them alien craft hurtle towards you. If you don't destroy them you'll never make it to the next level. Bold and bright 3-D action.....

£11.99

GHOSTBUSTERS

All the fun of the movie as you operate your franchise, equipping your car, vacuuming ghosts and trying to make money. You need a combination of wits and speed in this varied and imaginative game.....

£11.99

DECATHLON

Become an Olympic-class athletics champion without getting out of breath. Excellent graphics depict all the decathlon events, with you in complete control. The ideal program for the armchair athlete.....

£11.99

ALLIGATA

DISC WARRIOR

Fabulous graphics show part of a maze of rooms in oblique 3-D. You control the warrior as he moves around, looking for the way out, and killing heavily-armed spacemen with his deadly discs.....

£7.95

BLAGGER

A case of harmless robbery as you wander around strange rooms, leaping from level to level to collect keys and avoid deadly objects. Scores of different screens and a sense of humour.....

£7.95

CONTRACT BRIDGE

The world's most popular card game in a form that should keep seasoned players entertained and help teach beginners the basics. And a replay feature lets you see where you went wrong!.....

£9.95

AMPALSOFT

CHALLENGE MY BLUFF

This game comes on two tapes, each containing 400 unusual words. You're given three possible definitions for each and you have to guess the right one. It's a good way of broadening your vocabulary.....

£9.95

KRISS KROSS KUIZ

This is a quiz version of noughts and crosses. To get your circle or cross in a square you must first answer a question correctly. And to stop you getting bored there are two tape's worth of questions.....

£9.95

FUN WITH WORDS

This package of two tapes was designed by schoolteachers for four to six year olds. It helps them put names and simple descriptions to objects. Drawn in attractive graphics on the screen.....

£9.95

LET'S GO MSX

These two cassettes start where your micro's introductory tape left off. The programs provide an insight into BASIC programming and the workings of your computer - ideal for kids and newcomers.....

£9.95

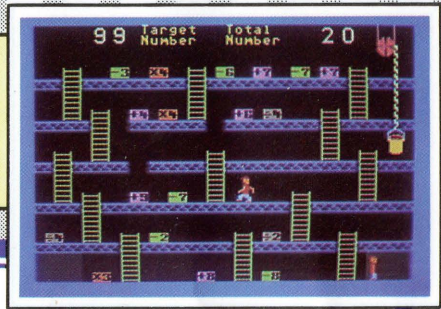

BEAMRIDER by ACTIVISION

The energy beams zoom into the distance. As you ride them alien craft hurtle towards you. If you don't destroy them you'll never make it to the next level. Bold and bright 3-D action **£11.99**

NUMBER PAINTER by ASK

A superb game for 5 to 14 year olds which teaches mental arithmetic skills. In a race against time you must dash around the scaffolding, collecting numbers and calculating their effect **£8.95**

ANIROG

FLIGHT PATH 737

All you have to do is take off, fly over some mountains and land again. You've a full set of instruments and controls, and a colourful view out of the cockpit. Sounds easy? Well, just try it! **£8.95**

JUMP JET *

..... **£9.95**

ARTIC

MR WONG'S LOOPY LAUNDRY

There's no chance to rest in this frantic platform-type game. You have to dash around floors and up ladders to collect the washing, chased by soap suds, a crazed steam iron and an evil laundry bag! **£8.00**

ASK

NUMBER PAINTER

A superb game for 5 to 14 year olds which teaches mental arithmetic skills. In a race against time you must dash around the scaffolding, collecting numbers and calculating their effect **£8.95**

BUBBLEBUS

HUSTLER

A faithful version of pool. Six different types of game are possible, including one and two player options. You can control the power, spin and direction of the ball so you'll need all your skills **£6.99**

BOARDELLO

This is a superb hexagonal version of the popular Othello board game. It's for one or two players, and you have the option of changing the skill level and board size **£7.95**

WIZARD'S LAIR*

Set in a maze of no less than 256 rooms, Wizard's Lair combines brain stretching adventure-type problems with fast moving arcade graphics. One for the more agile minds **£7.95**

CDS

CASTLE BLACKSTAR *

A text only adventure with over 200 fascinating locations. Your task is to recover the inevitable golden orb. The game features a very large vocabulary and a welcome sense of humour **£6.95**

FRENCH IS FUN

Count, tell the time and increase your vocabulary with this useful program. Choose from a range of scenes, including the beach and cafe, each amusingly illustrated and annotated **£7.95**

GERMAN IS FUN*

If you can't tell a fraulein from a frankfurter, this is the program for you. It gives you a good grounding in essential German words, plus how to tell the time and count **£7.95**

ITALIAN IS FUN*

The next time you want to order ice cream in Rome, you'll be grateful you bought this program. It'll teach you enough words to keep you going, and help you count and tell the time in Italian **£7.95**

SPANISH IS FUN*

Don't feel left out on the Costa del Sol. All the most important words are here in this graphic program. Learn to count, tell the time and name crucial objects in an enjoyable and entertaining way **£7.95**

COMPUTERMATES

WORD PROCESSOR

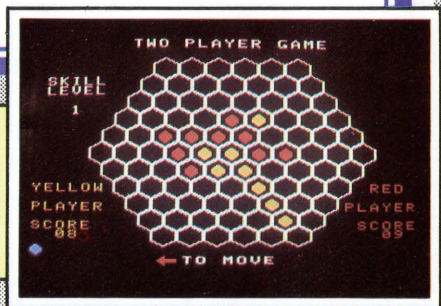

Simplicity of operation is the main feature here. Entering and editing text is extremely easy, and so is formatting it for print out. You'll be using this program like an expert in half an hour **£39.95**

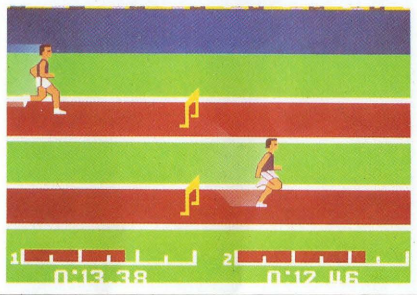

CARDS

Easy to set-up and use, but extremely versatile, this database uses the familiar index card approach, both in format and graphics. Free form text entry and very fast searching are its strongest features **£39.95**

BOARDELLO by BUBBLEBUS

This is a superb hexagonal version of the popular Othello board game. It's for one or two players, and you have the option of changing the skill level and board size **£7.95**

DECATHLON

Become an Olympic-class athletics champion without getting out of breath. Excellent graphics depict all the decathlon events, with you in complete control. The ideal program for the armchair athlete..... **£11.99**

SEE PAGE 4

MAILSHOT

A useful combination of the **Word Processor** and **Cards** programs, this package enables you to create text and address it to a list of people kept in the database.  **B**

£69.95

CASH ACCOUNTS

This is a no-nonsense professional package, designed to take the pain out of keeping your accounts. Designed for small businesses it has everything you need in an easy to understand format..... **B**

£99.95

SPREADSHEET

Comparable to many professional systems costing much more, this financial tool keeps track of your figures quickly and efficiently. It's simple to use but sophisticated enough for the average business person.....  **B**

£39.95

BUSINESS GRAPHICS*

Display your accounts in an understandable way. This program takes the files created by the spreadsheet and displays the figures in graphical form, as pie charts and so on.....  **B**

£39.95

COMMUNICATIONS

All you'll need in communications software, including full Prestel graphics, offline viewdata editing, a carousel feature for viewdata pages and full support of all baud rates and protocols.....  **B**

£39.95

THE SECRETARY

A combination of the **Word Processor**, **Cards** database and **Communications** program, all in one cartridge, this is a comprehensive package for those who already have RS232 adapters.....  **B**

£99.95

RS232 + COMMUNICATIONS

The **Communications** program combined with a full-specification RS232 interface, necessary if you want to link up with another computer or a modem. All contained in one neat cartridge.....  **B**

£99.95

RS232 + SECRETARY

The RS232 interface lets you hook up with the telephone line, while the sophisticated Secretary program helps you make the most of this facility. The most complete business package around.....  **B**

£199.95

†DISC INTERFACE*

This package opens up the world of disc drives. No longer are you restricted to MSX versions. Both 5.25 and 3.5 inch disks can be used. MSX disk BASIC is supplied on board, so you've everything you need.....  **B**

£99.95

†RS232 CABLE

This is required for linking the RS232 interface cartridges to a modem. The modem end is a standard RS232 D-type connector, which should fit most models..... **B**

£14.95

DKTRONICS

MINDER

They're all here - Terry Arthur, Dave and a host of dubious characters. As Arthur you must buy and sell with skill. You've just 14 days to make as much money as possible.....  **A**

£9.95

ECLIPSE

OH MUMMY!

There's plenty of treasure in the Egyptian tombs, but certain bandaged ghouls don't want you to have it. Keep moving around the various grids to avoid them, but watch out, they're smart!.....  **A**

£5.95

HOT SHOE

Boldly going where no-one else wants to you hurtle through space to de-activate nuclear reactors. If you survive the 3-D asteroids you then have to leap around coloured discs. Recommended for younger spacemen.....  **A**

£5.95

ELECTRIC

SHARK HUNTER

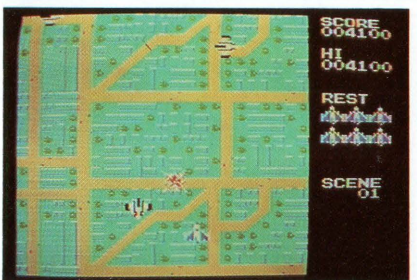

It's a hard life for your Eskimo as you battle with the sharks to save your fish stocks. Your only defence is your spear as you hop around the ice floes. If you're successful your family can eat, otherwise...  **A**

£8.95

BACKGAMMON

Take a rest from zapping aliens and pit your wits against the computer in this popular board game. All the usual features are supported in a highly colourful, and very smart, implementation.....  **R**

£9.95

†THIS IS A PERIPHERAL, NOT SOFTWARE

SKY JAGUAR

Roaring across an alien landscape you're confronted by waves of alien spaceships of many different types. It's simple stuff but the graphics are stunning and the speed can make you dizzy..... **£14.95**

SEE PAGE 9

KUBUS by KUMA

Your mission is to retrieve the megacrystal and any other you find lying about. But you're unarmed and your oxygen is limited. The game features stunning 3-D graphics and a demo mode.....

£6.95

SEE PAGE 12

ZAXXON

This arcade classic in stunning 3-D. Fly through heavily armed corridors, destroying what you can and avoiding guns, walls and laser shields. If you kill the robot at the end, it's off into deep space for a dogfight.....

£11.99

BUCK ROGERS

Fast and furious 3-D action, as you fly your ship between pylons, zap aliens and eventually zoom into space to face more trouble. With excellent graphics and frantic action it's for the strong hearted.....

£11.99

BUZZ OFF

It seems bees have an insatiable appetite for fruit, but this one needs your help to get it. But you need very fast reflexes to avoid spider webs. Simple, colourful and entertaining.....

£7.95

NORSEMAN

The task in this novel game is to kill monsters, humanely of course! With 10 levels there's a lot of them, and they move pretty fast. Hopping around the grid at great speed is your only defence.....

£8.95

LE MANS

For speed freaks everywhere, this fast racing simulation has everything—even gauges and rear view mirrors. Watch out for rocks, puddles, oil slicks and other cars as you cruise at 200 mph.....

£9.95

THE WRECK

This adventure has one unusual feature—it's graphics only! You must find your way amongst the layers of mazes on a sunken ship, avoiding enemies and looking for clues and useful objects.....

£14.95

BARNSTORMER

You're the World War I fighter ace who now earns his living by stunt flying. Excellent scrolling graphics show you flying your Sopwith Camel through haystacks and barns while fighting off barrage balloons.....

£8.95

PINKY*

It's enough to put you on the wagon. This game has a pink elephant on a monocytle being chased by a train, and it all happens on a rollercoaster. Amazing scrolling graphics are the games strongpoint.....

£8.95

EROS*

With tongue firmly in cheek, this game features the best parts of most of the others. This time you're cupid trying to keep the numbers of Romeos and Juliet's roughly equal. It's funny as well as entertaining.....

£8.95

SEWER SAM*

After falling down a manhole, when trying to kiss your girlfriend, you must wander through the sewers, fighting off bats, spiders and assorted creatures. Excellent 3-D graphics and speech synthesis.....

£8.95

CHORO'Q (WAS Bouncing Beetles)*

Playing the part of a cute Volkswagen Beetle, you must scuttle through the factory helping to build cars. But the factory is a dangerous place, and the cars don't seem to want to be built!.....

£8.95

CHACK'n POP*

A heart has been trapped in a cage. Your purpose, in this cute and romantic program, is to release it. When you do that a hole appears in the wall and you can escape. And its all done to good musical accompaniment.....

£8.95

SWEET ACORN*

For some reason you've taken a dislike to butterflies. The result is you end up throwing acorns at them, and the more you hit, the higher your score. A simple but entertaining game.....

£8.95

MSX ARTIST (GRAPHICS EDITOR)*

This program pushes the video chip to its limit. Use it to create pictures, and design and animate sprites. It's ideal for designing games graphics and seeing them in motion, or for producing games demos.....

£9.95

ELECTRIC STUDIO

SPRITE EDITOR

A useful utility to make designing those handy MSX sprites a little easier. Patterns can be created pixel by pixel, and the final results can be saved to tape for inclusion in your own programs.....

£6.95

GRAPHIC DESIGN

Something for budding computer artists, this program lets you draw on screen, using a variety of lines, circles, triangles and rectangles, fill shapes in solid colour, and save your designs to tape.....

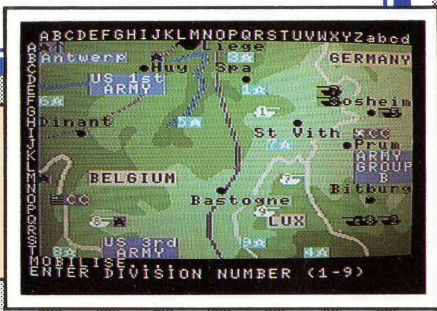

£14.95

PANZER ATTACK by LOTHLORIEN

If you don't think of waistlines when someone mentions the Battle of the Bulge, this could be for you. It's a clever and fascinating wargame simulation based on the famous World War II engagement.....

£7.95

SEE PAGE 13

ATHLETIC LAND by KONAMI

The hero here is an energetic child facing untold dangers, such as deadly lily ponds and rolling tomatoes, in a colourful and detailed adventure park. Recommended for those tired with lasers and spaceships **£14.95**

HI-SOFT

HI-SOFT DEVPAC

Probably the best assembler available for MSX, it features an excellent screen editor system and all the utilities you'll ever need. A must for serious machine code programmers **£19.95**

HI-SOFT PASCAL

This is the language commonly used in business packages for applications like databases and management systems. This compiler is an excellent version of it—very compact and close to the original **£29.95**

DEVPAC 80*

Similar to the original Devpac program, this is a sophisticated assembler for machine code programming and editing. This version is designed to run under the MSX disc operating system, MSX-DOS **£39.95**

ED 80*

A sophisticated and versatile full screen editor, which runs under MSX-DOS. A highly useful utility for the advanced computer programmer who wants to make his or her life a little easier **£29.95**

PASCAL 80*

The disc version of HI-Soft's excellent pascal compiler, running under MSX-DOS. It's the ideal choice for people wanting to write sophisticated business packages or database systems **£39.95**

HAL

HOLE IN ONE

You guessed it, it's a golf game! You get 18 holes, all beautifully drawn, and control over the choice of club, and the curve and power of your stroke. Absolutely essential for golfing fanatics **£14.95**

MR CHIN

This is a computer version of the old juggler's trick of keeping several plates spinning on top of poles. But the poles are on three levels, and lethal objects fly across the stage, so you have to be quick **£14.95**

ROLLERBALL

No more leaning on pin tables in greasy cafes—this is a colourful and addictive version of the game from the original amusement arcades. All that's missing is the TILT sign! **£14.95**

STEP UP

As the name suggests, it's a platform-type game. In fact you have a choice of ten platforms, each infested by bats, rats, spiders and other monsters, drawn in horribly imaginative detail **£14.95**

SUPER BILLARDS

Enjoy your favourite game without all that nasty bending over tables. You have full control over the direction and power of the shot. Highly addictive, although it's actually nearer to pool than billiards **£14.95**

SUPER SNAKE

You control a snake whizzing around an enclosure, eating fruit and gaining points. But watch out for your own tail, as the snake gets longer each time it dines. Especially good for the younger games. fanatic **£14.95**

KONAMI

ANTARTIC ADVENTURE

Help the cute penguin leap over crevasses, avoid sea-lions and skate fast on its way round the icy continent. Lovely 3-D graphics and a catchy tune have made this an all-time favourite **£14.95**

ATHLETIC LAND

The hero here is an energetic child facing untold dangers, such as deadly lily ponds and rolling tomatoes, in a colourful and detailed adventure park. Recommended for those tired with losers and spaceships **£14.95**

CIRCUS CHARLIE

Some cunning stunts are required as you leap through flaming hoops riding bareback, walk the high wire and generally defy death and embarrassment under the big top. Entertaining stuff **£14.95**

COMIC BAKERY

It's a hard life being a baker. Not only do you have to make sure enough croissants make it to the end of the conveyor belt, but you also have to watch out for ravenous raccoons. Highly amusing **£14.95**

HYPER SPORT III by KONAMI

The latest in the line, this one puts you to the test in cycling, the triple jump, curling and the pole vault. Not a game for those who prefer more leisurely pursuits **£14.95**

SEE PAGE 9

HYPER RALLY by KONAMI

In stunning 3-D you must race against time, through night and day and all kinds of weather, to complete the rally. Fortunately you've complete control to the car, including direction, gears and speed **£14.95**

HYPER SPORT I

The first of the very popular sports collections, this one includes the high dive, vaulting, the trampoline and the horizontal bar. All these games feature superb graphics and excellent control of the athlete **£14.95**

HYPER SPORT II

More sports, this time it's skeet shooting, archery and weight lifting. If you get high scores there are some surprises in store for you, like a mysterious blue parrot which can't be killed. **£14.95**

HYPER SPORT III*

The latest in the line, this one puts you to the test in cycling, the triple jump, curling and the pole vault. Not a game for those who prefer more leisurely pursuits **£14.95**

MONKEY ACADEMY

A fun game with an educational content. Your task is to help the monkey find the right number to complete a sum, by leaping around the various levels and avoiding nasty crabs. Several difficulty levels are available **£14.95**

SKY JAGUAR

Roaring across an alien landscape you're confronted by waves of alien spaceships of many different types. It's simple stuff but the graphics are stunning and the speed can make you dizzy **£14.95**

SUPER COBRA

You're a helicopter pilot with a mission—to pick up a box. But it's on the other side of a mountain range bristling with enemy firepower. Great sound and graphics in the Scramble-type game **£14.95**

TIME PILOT

Battle with fighter aircraft from every era—from World War One bi-planes to the spaceships of the near future. Intense concentration and a quick wrist are needed for this fast action game **£14.95**

TRACK & FIELD I

The original sports game, and still one of the best. Take a deep breath and try your hand at the 100 metre dash, the long jump, the hammer throw and a 400 metre run **£14.95**

TRACK & FIELD II

The most exhausting of the sports cartridges, this program has you taking part in the 110 metre hurdles, the javelin, the high jump and an extremely gruelling 1500 metre run **£14.95**

KONAMI'S TENNIS

An excellent implementation of women's tennis, for one or two players. It's smart, too. If you start winning, it starts playing better! Just the thing to have for the next Wimbledon season **£14.95**

YIE AR KUNG FU

Martial arts without the bruises. Pit your skills against a host of mean minded enemies. You have full control over your hero, including various low kicks, high kicks, punches and jumps **£14.95**

KING'S VALLEY

Archaeology can be dangerous. While collecting gems in the depths of some pyramids you're chased by fast and clever ghouls. An imaginative and addictive variant of the platform game **£14.95**

MOPIRANGER

As one of the cutest heroes around you must rescue trapped moplits from a series of mazes, while trying to avoid getting trapped yourself. Cunning is needed as you battle with tidal flows and deadly objects **£14.95**

KONAMI'S GOLF

Enjoy the comfort of the nineteenth with the fun and skill of the green. You're in full control of the power and angle of your shots, in one of the most colourful of the golf simulation **£14.95**

HYPER RALLY*

In stunning 3-D you must race against time, through night and day and all kinds of weather, to complete the rally. Fortunately you've complete control to the car, including direction, gears and speed **£14.95**

ROAD FIGHTER

This is the toughest race of all, and you've got the perfect aerial view of it. Fight with other cars and avoid obstacles like oil slicks and tankers, as you speed through forests, towns and along the seaside **£14.95**

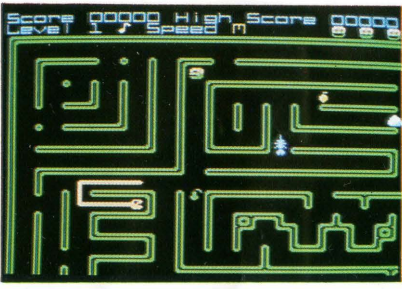

KONAMI'S SOCCER*

The world's most popular ball game is brought to your screen with Konami's usual style and quality. Control any player in your team, the computer takes care of the rest **£14.95**

YIE AR KUNG FU by KONAMI

Martial arts without the bruises. Pit your skills against a host of mean minded enemies. You have full control over your hero, including various low kicks, high kicks, punches and jumps **£14.95**

HYPER VIPER by KUMA

You may not like the idea of being trapped in an elaborate maze with a load of poisonous vipers and scorpions, but it sure makes for an interesting game. You get a choice of speed but you'll probably want the fastest!..... **£7.95**

KONAMI'S PING PONG*

Another 3-D sport, similar to the popular tennis game. But this time you see the playing area in close-up, with just the hand and bat of your player visible. Gripping stuff..... **£14.95**

KNIGHTS

EXPLODING ATOMS & VICIOUS VIPER

Two simple but enjoyable games for the price of one. **Exploding Atoms** is a board game of cunning and strategy, while **Vicious Viper** is a version of the arcade favourite..... **£5.95**

SMASH OUT & OTHELLO

Two of the earliest computer games brought to MSX by Knights. **Smash out** involves breaking through a wall with a bouncing ball, and **Othello** is the classic game of strategy..... **£5.95**

TYPING TUTOR

Get to know your keyboard. This handy program familiarises you with the layout of the keys, and tests how fast you can find them. A useful introduction for the computer newcomer..... **£5.95**

KNIGHTS BUDGET ACCOUNTS

If you take care of your money with your computer it could earn its keep. This program helps you do just that, keeping track of where the money goes, as well as where it comes from..... **£28.75**

STOCK CONTROL

With this handy program you get instant information on the price and stock level of any product, plus a complete stock report with current value. Up to 40 supplier's names and addresses can be recorded..... **£28.75**

VIDEO LIBRARY SYSTEM*

This program will store the names and format of up to 900 tapes, with membership numbers recorded against those which are out. And your customers can use it to see which films are available..... **£28.75**

DATABASE 1000*

On the outside a straightforward card index-style program. But what's special about this one is that you can have up to 1000 cards at your disposal, with all the usual search and printing facilities..... **£46.00**

MACHINE CODE*

A complete new language for your micro. This utility lets you write programs directly in machine code, without the need for an assembler, and so opens up the possibilities of large and fast programs..... **£28.75**

ASSEMBLER/DISASSEMBLER*

Essential tool for the machine code programmer. This allows you to write the code, in the form of 80 assembly language, and examine your computer's memory to see what's already there..... **£28.75**

KNIGHT COMMANDER*

MSX BASIC might be good, but this makes it even better. The program adds a whole new set of commands to standard BASIC, and allows, amongst other things the compression of large programs, so saving memory space..... **£28.75**

KUMA

ERIC & THE FLOATERS

Like a demented anarchist you whizz around a maze blowing up walls and evil balloons, looking for the treasure chest and the way out. A game of cunning but requiring great speed..... **£5.95**

SUPERCHESS

An excellent program for beginners and enthusiasts alike. Not only do you get an excellent game of chess but you can learn by asking the computer to move for you, or to recommend a move..... **£8.95**

NINJA

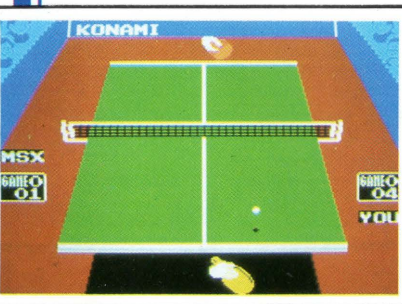

The action takes place in three beautifully-drawn locations in and around a castle. As the assassin in the red romper suit you must battle with the deadly guards to capture the castle..... **£6.95**

WDPRO*

A fully featured word processor for those who need sophistication. It includes page and paragraph numbering and extensive print formatting commands. It's unusual in some respects but very versatile..... **£29.95**

HYPER VIPER

You may not like the idea of being trapped in an elaborate maze with a load of poisonous vipers and scorpions, but it sure makes for an interesting game. You get a choice of speed but you'll probably want the fastest!..... **£7.95**

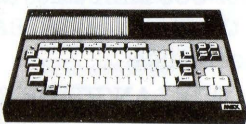

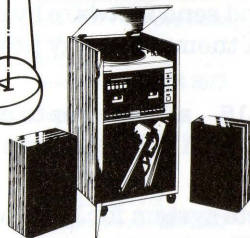

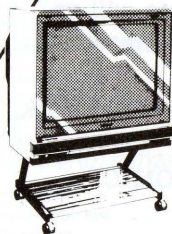

KONAMI'S PING PONG by KONAMI

Another 3-D sport, similar to the popular tennis game. But this time you see the playing area in close-up, with just the hand and bat of your player visible. Gripping stuff..... **£14.95**

STAR AVENGERS by KUMA

Even the easy level in this game is fast. It's a **Scramble** variant, where you must fly over landscapes and through caverns, shooting everything in sight and staying out of the way of the enemy fire **£8.95**

SPOOKS AND LADDERS

Some might call it cruelly to dumb monsters, but most should find **Spooks and Ladders** an exciting platform game, with enough levels and action to satisfy the most hardened games fanatic..... **£6.95**

STOP THE EXPRESS

We've all seen our heroes fighting villains on the tops of speeding trains. Well, that's the idea here. Jump from coach to coach, fight evil crooks and, at all costs, avoid the low bridges!..... **£6.95**

DRILLER TANKS

Digging down under the ice palace you score points by drilling tunnels and destroying nasties, who are intent on reaching the palace. But they get faster and smarter on each successive level **£8.95**

BINARY LAND

A maze chase with a crucial difference. In this one you control two characters at the same time – one a mirror image of the other. A trickier game than most, it requires planning as well as speed **£8.95**

FIRE RESCUE

Another platform game, this time you must rescue mice from a blazing building. Fortunately there's a practice level at the beginning, and you have some fire extinguishers, so you're not instantly turned to cinders **£7.95**

DOG FIGHTER

With just five fighters you must shoot down all the enemy planes. You get an aerial view but it's not as easy as it sounds, as the aircraft, including your own, fly at different heights. It's tricky but fun **£6.95**

COCO IN THE CASTLE

Avoid traps and obstacles and discover a hidden path to rescue your fiancée. With ten screens and five levels of play, from serf to wizard, there's plenty of variety **£6.95**

CRIBBAGE

An excellent implementation of six card cribbage, this game is full of witty comments and clever graphics. And it's also hard to beat, which stops you getting bored **£5.95**

HOLDFAST

This is your chance to take over, in Kuma's cunning strategy game. As the leader of a small village you must undermine your people's confidence in the government and bring about its downfall **£5.95**

STAR AVENGERS

Even the easy level in this game is fast. It's a **Scramble** variant, where you must fly over landscapes and through caverns, shooting everything in sight and staying out of the way of the enemy fire **£8.95**

MEAN STREETS

This text-only adventure is definitely for the streetwise. It's all about surviving on today's streets, complete with dangerous situations and corny wisecracks. A great idea well executed **£6.95**

HOME BUDGET

Want to know where your money is going? This program keeps track of thing like mortgage, car expenses and so on, with simple analysis. It could be what you bought your computer for **£14.95**

ZEN MACHINE CODE SYSTEM*

Sometimes BASIC just isn't fast enough. For those who want to delve into the mysteries of machine code an assembler is essential, and Kuma's Zen assembler fits the bill perfectly **£19.95**

LOGO

The programming language which has become so popular in schools and for robot control, it encourages well-structured programs. Ideal for learning about programming in general **£19.95**

COLOUR FANTASIA

A fascinating paintbox program which enables you to create designs and add new colours – up to 105 – to your micro's palette. The designs and colours can be saved to tape for later inclusion in your own programs **£9.95**

DATABASE*

A well written database which is easy to set up and fully documented. You can store up to 200 extensive entries, like names, addresses and telephone numbers, and a versatile printing facility is included **£19.95**

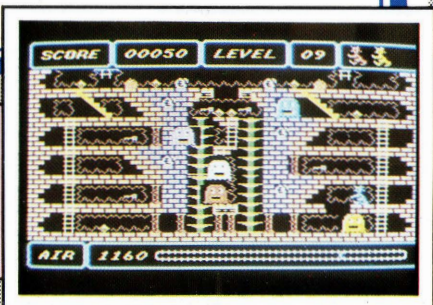

SPREADSHEET

The standard accountant's tool is given the full treatment by Kuma. This version has many sophisticated features, including the ability to handle complex formulae, and smooth screen scrolling **£29.95**

Also available on disc, check for prices

SPOOKS AND LADDERS by KUMA

Some might call it cruelly to dumb monsters, but most should find **Spooks and Ladders** an exciting platform game, with enough levels and action to satisfy the most hardened games fanatic..... **£6.95**

GALAXIA by KUMA

A colourful and tuneful space shoot-em-up, with no fewer than ten types of alien. Your mission is to survive swarms of the nasty creatures and successfully dock with the mother ship..... **£6.95**

COMMUNICATIONS

Used with an RS232 adapter and a modem this allows you to join the communications revolution. Use it to log on to Prestel, Telecom Gold, bulletin boards and other on-line services..... **£19.95**

KUMA FORTH

The programming language invented to control a telescope has many applications in robotics and for when you want to write a program which runs very fast, without resorting to machine code..... **£39.95**

GALAXIA

A colourful and tuneful space shoot-em-up, with no fewer than ten types of alien. Your mission is to survive swarms of the nasty creatures and successfully dock with the mother ship..... **£6.95**

SHADOW OF THE BEAR

An ideal introduction to the world of adventures. Beginners will find plenty to mystify and confound them and, with its colourful pictures, it's hard to get bored with this game..... **£7.95**

DEATH VALLEY GOLD RUSH

This adventure not only has graphics but some sound as well. It's set in the Wild West and the idea is to head for the hills and make your fortune. It's fun to play and ideal for beginner adventures..... **£7.95**

HUNTER KILLER

As the commander of a wartime sub your job is to destroy as many ships as possible. But watch out for depth charges. This is an unusual adventure in that it contains animated graphics sequences..... **£7.95**

SHNAX

This takes over where Pacman left off. Stunningly colourful graphics show a collection of mazes which you must complete to earn points. It's fast and difficult, but a lot of fun..... **£6.95**

KUBUS

Your mission is to retrieve the megacrystal and any other you find lying about. But you're unarmed and your oxygen is limited. The game features stunning 3-D graphics and a demo mode..... **£6.95**

ZIPPER

It may sound strange, but as the little-known superhero Capt Zip you make your way up a giant zipper. But then it starts to fasten. Avoid the broken teeth and falling sewing materials..... **£3.95**

FRUITY FRANK

You're out in the garden picking fruit when you're assailed by a menagerie of monsters, plus falling plums and strawberries. Your only hope is to kill the monsters, with your ball as the ultimate weapon!..... **£6.95**

LEVEL 9

COLOSSAL ADVENTURE

This is the one that started it all, the classic text adventure which first appeared on mainframe computers. And it still looks good. This is adventure text at its best, and it could hook you for months..... **£9.95**

ADVENTURE QUEST

Intended to be the sequel to *Colossal Adventures*, this is another 200 plus locations to visit and more riddles to solve. The text-only format features superb descriptions..... **£9.95**

DUNGEON ADVENTURE

One of the earliest adventures, *Dungeon Adventure* features over 200 locations. It's text only but the words conjure up fabulous images of demons, treasure and assorted magic. A program you can really lose yourself in..... **£9.95**

SNOWBALL

Unlike the mythical post of most adventures, this one's set in the future on board a starship colony. You don't get graphics but you do get over 7000 locations. The first in the Silicon Dream trilogy..... **£9.95**

RETURN TO EDEN

The second part of the Silicon Dream trilogy of adventures. This time it has graphics and over 200 locations. You have to survive the jungle and its strange creatures to reach the robot city..... **£9.95**

THE WORM IN PARADISE*

The final episode of the Silicon Dream trilogy this is the latest of Level 9's adventures, and possibly the first political sci-fi one. Your aim is to reach Paradise by beating the system..... **£9.95**

FRUITY FRANK by KUMA

You're out in the garden picking fruit when you're assailed by a menagerie of monsters, plus falling plums and strawberries. Your only hope is to kill the monsters, with your ball as the ultimate weapon!..... **£6.95**

SPECIAL OPERATIONS by LOTHLORIEN

This is an imaginative variation on the adventure theme. In the latter days of World War II you must hand pick a dedicated team for a mission behind enemy lines. Graphics include useful maps **£7.95**

LORD OF TIME

A text only adventure in which a band of evil time lords are plotting to alter world history. You must stop them by finding and keeping nine symbolic objects scattered through space and time **£9.95**

EMERALD ISLE

Somewhere deep in the Caribbean, in the midst of the Bermuda Triangle, is the beautiful Emerald Isle, scene of Level 9's second adventure to feature graphics, and one of the best available at the price **£6.95**

RED MOON

More magical adventuring. Over 200 locations are graphically illustrated with scores of colourful pictures. And in this game you have the power to cast spells and perform magic feats **£6.95**

LLAMASOFT

PSYCHEDELIA

This is the first light synthesizer. You can make the screen come alive with showers of colour and moving shapes, and it's different each time you play it. A highly unusual but entertaining program **£6.00**

LOTHLORIEN

SPECIAL OPERATIONS

This is an imaginative variation on the adventure theme. In the latter days of World War II you must hand pick a dedicated team for a mission behind enemy lines. Graphics include useful maps **£7.95**

PANZER ATTACK

If you don't think of waistlines when someone mentions the Battle of the Bulge, this could be for you. It's a clever and fascinating wargame simulation based on the famous World War II engagement **£7.95**

MARTECH

BRIAN JACKS - SUPER CHALLENGE*

This is based on the Superstars events, with eight tests of your stamina - arm dips, squat thrusts, canoeing, cycling, football, swimming, archery, and a 100 metre dash ... **£7.95**

EDDIE KIDD - JUMP CHALLENGE*

No prizes for guessing this is about motorbike jumps. Control the gears, throttle, brake and riding position as you line up to jump over a row of carts. You can even do wheelies if you want! **£7.95**

INTRODUCING CIRCLES 1 by MENTOR

Aimed at ten to fourteen year olds, this defines the circle and deals with the concepts of radius, diameter, chord, circumference and arc in highly visual form. As with all Mentor programs, questions are set at the end **£7.95**

MEGACYCAL

REVISE PHYSICS

Ideal for 'O' Level students, this takes you through the main physics subjects, setting questions and providing you with the answers should you get them wrong. Good for learning as well as revising **£8.50**

GUMSHOE

Ever fancied yourself as a private eye? This game has a Cluedo-like feel to it. Match up mobsters, molls, rackets and henchmen. You'll need a logical mind for this one **£9.20**

GODS OF THE TOMB

A general knowledge quiz with a purpose - to save a poor, worried man trapped in a tomb from getting crushed. If you get the answers wrong, the walls close in. Fun for kids, and educational too **£9.20**

TEACH YOURSELF ELECTRICITY

Confused by volts and amps? Baffled by resistors and transformers? This program takes you through the basics of electrical theory in a simple, easy-to-understand way **£9.20**

MELBOURNE HOUSE

THE HOBBIT

This was the first adventure to use graphics, and still one of the best. It closely follows the book, which is supplied with the game, and all the famous characters are included **£14.95**

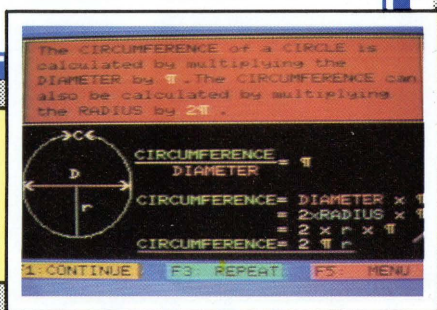

CLASSIC ADVENTURE

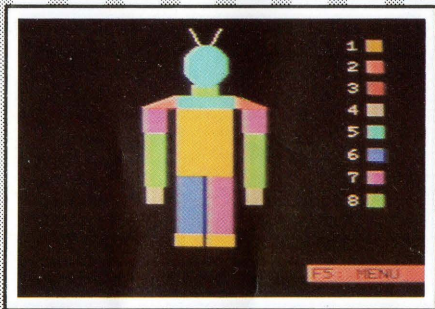

Just as it sounds, this is a text adventure in the traditional style, full of riddles and problems to solve, strange creatures and featuring a large number of locations. **£6.95**

MENTOR

INTRODUCING CIRCLES 1

Aimed at ten to fourteen year olds, this defines the circle and deals with the concepts of radius, diameter, chord, circumference and arc in highly visual form. As with all Mentor programs, questions are set at the end **£7.95**

INTRODUCING SHAPES by MENTOR

One of the most popular Mentor programs, for three to seven year olds, this develops the concept of tens and units in the same way a child would, using bright graphics to make the process painless..... **£7.95**

INTRODUCING CIRCLES 2

This reviews the concepts in the previous program and also brings in the area of a circle, sectors, semi-circles and segments. The formulae are developed rather than simply presented..... **£7.95**

INTRODUCING FRACTIONS 1*

Aimed at seven to ten year olds, this program introduces simple fractions and how they are formed. It teaches the basic terminology and demonstrates the concept of equivalent fractions..... **£7.95**

INTRODUCING FRACTIONS 2*

Ten to 14 year olds are shown how to add fractions, how to convert to whole numbers plus fractions, and the concept of equivalent fractions is also dealt with in a series of exercises..... **£7.95**

INTRODUCING PERCENTAGES 1

This program shows seven to ten year olds a new way of expressing decimals and fractions. A cute Figaro character brightens up the learning process, and other entertaining graphics are also used..... **£7.95**

INTRODUCING PERCENTAGES 2*

Taking percentages a little further, this time for ten to 14 year olds, this program demonstrates the relationship between decimals, fractions and percentages, using the classic 100 square, and visual examples..... **£7.95**

INTRODUCING SEQUENCES*

This program develops an awareness of number sequences (such as prime, square, odd and even numbers) in ten to 14 year olds. It's highly graphical and uses exercises to demonstrate the main principles..... **£7.95**

INTRODUCING SHAPES*

The first in a series, this is a fun program for seven to ten year olds, introducing squares, rectangles, triangles and circles in a variety of settings. The child can choose the colours and colour - in the shapes..... **£7.95**

INTRODUCING THE RECTANGLE*

Aimed at ten to 14 year olds, this program is ideal for learning, teaching or revising. It uses buildings to illustrate how to calculate values like the perimeter and area of a rectangle..... **£7.95**

INTRODUCING THE SQUARE*

Similar to the rectangle this uses everyday objects, illustrated with excellent graphics, to demonstrate to ten to 14 year olds how to calculate the perimeter and area of a square..... **£7.95**

INTRODUCING THE TRIANGLE*

Intended for ten to 14 year olds, this program can be used up to 'C' Level stage. It deals with all the difficult geometric concepts, including perimeter and area, in an uncomplicated way..... **£7.95**

SIMPLE ADDITION 1*

This is for three to seven year olds, and demonstrates addition by showing a crane lifting coloured blocks on to a lorry. It's designed as an introduction, and deals with units only..... **£7.95**

SIMPLE ADDITION 2*

Following on from the previous program, and also for three to seven year olds, this deals with the addition of hundreds, tens and units, backed up by a graphic display of an abacus..... **£7.95**

SUBTRACTION 1

A crane moving coloured blocks is one of several graphic devices used to show the idea of 'take-away' to four to seven year olds. This particularly colourful program deals with just units..... **£7.95**

SUBTRACTION 2*

Taking away is taken a step further by introducing tens and hundreds as well as units, and the regrouping (borrowing) concept is introduced. An abacus shows seven to ten year olds what's going on..... **£7.95**

TENS AND UNITS*

One of the most popular Mentor programs, for three to seven year olds, this develops the concept of tens and units in the same way a child would, using bright graphics to make the process painless..... **£7.95**

TRIGONOMETRY BASIC CONCEPTS

For ten to 14 year olds, this defines the right angled triangle and the hypotenuse, and graphically demonstrates the relationship between sine, cosine, tangent and ratios, with the usual random questions at the end..... **£7.95**

In a RIGHT-ANGLED TRIANGLE the RATIO of the length of the ADJACENT side to the length of the HYPOTENUSE is called the COSINE of an angle.

$$\text{COSINE } A = \frac{\text{ADJACENT}}{\text{HYPOTENUSE}} = \frac{\quad}{\quad} = \quad$$

$$\text{COSINE } C = \frac{\text{ADJACENT}}{\text{HYPOTENUSE}} = \frac{\quad}{\quad} = \quad$$

TRIGONOMETRY BASIC CONCEPTS by MENTOR

For ten to 14 year olds, this defines the right angled triangle and the hypotenuse, and graphically demonstrates the relationship between sine, cosine, tangent and ratios, with the usual random questions at the end..... **£7.95**

CRAZY GOLF

Getting from the tee to the hole isn't easy when there's a load of strange shapes and objects in your way. With a total of ten holes to play the game contains hours of frustrating fun..... **£7.95**

MICROCOM

NUGGIT*

Possibly one of the fastest games around, Nuggit involves dashing around underground tunnels looking for gold. As usual, things aren't quite that simple, and there are many ways you can come to a premature end..... **£5.95**

SWAMP*

Picking fruit might not seem a dangerous job. But when the bridge you're standing on starts to collapse, poisonous snakes appear and ravenous crocodiles snap at your ankles, things begin to look a little different..... **£3.95**

WAFFLE*

There's more to life on a waffle than you'd imagine, and it's your job to get rid of it. Unfortunately it moves pretty fast. An imaginative, amusing and attractive game - especially for the price..... **£3.95**

MIRRORSOFT

737 FLIGHT SIMULATOR

You'll need fine judgement and a good sense of direction in this, one of the most accurate flight simulators around. You can see the runway on take-off and landing but everything else is done by instruments and radar..... **£9.95**

FIRST STEPS WITH MR MEN

Aimed at four to eight year olds, this package contains no less than four, brain-teasing and absorbing games, using the popular cartoon characters, including Mr Greedy, Mr Silly and Mr Forgetful..... **£8.95**

STAR SEEKER

A program for those who like gazing at the heavens. It provides star and constellation maps, as well as information on the moon and stars for anywhere on Earth, at any time of the day or year..... **£9.95**

HERE AND THERE * WITH THE MR. MEN

..... **£7.95**

GAMES CREATOR *

..... **£12.95**

MR MICRO

CRAZY GOLF

Getting from the tee to the hole isn't easy when there's a load of strange shapes and objects in your way. With a total of ten holes to play the game contains hours of frustrating fun..... **£7.95**

CUBIT

This is one of the most original MSX games. It's a kind of three dimensional noughts and crosses, using four coloured grids of sixteen squares each. It's a real mind bender as you play against the computer and the clock..... **£7.95**

HUMPHREY

The Humphrey in question is the one who's hopping around a pyramid made of cubes trying to avoid some nasty bouncing bombs. In fact, there are four different types of pyramid, from easy to almost impossible..... **£7.95**

PUNCHIE

As you might have guessed from the title, this is based on Punch and Judy. The aim is to help the policeman rescue the baby by passing through a variety of screens avoiding dangers like flying sausages..... **£7.95**

ZAKIL WOOD

If you're tired of chasing aliens, try your hand at the more leisurely world of adventures. You'll need brainpower more than firepower to solve the riddles and mazes in this excellent example of the craft..... **£7.95**

MAYHEM*

..... **£7.95**

MST

BUSINESS ACCOUNTS

Keep track of up to 200 transactions at any one time, with five times this amount stored on tape. This program handles everything from credit sales and receipts to your current bank balance..... **£14.95**

DATABASE

Unlike some business programs you don't have to be a computer expert to use this package, nor is it so simple it's useless. MST have struck a good balance between ease of use and versatility..... **£14.95**

HOME ACCOUNTS

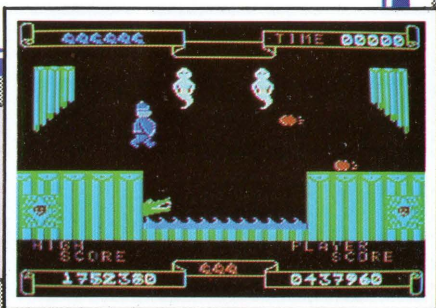

Running your bank account and general finance is a common reason for getting a micro in the first place. This program will help you do it by keeping track of income and expenditure in an easy to understand way..... **£14.95**

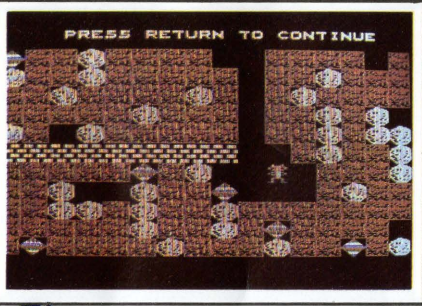

INVOICES AND STATEMENT

This program produces neat invoices and statements and can store up to 50 customer names and addresses. A separate creator program sets up user details, and it can cope with variable VAT, discounts and the like..... **£14.95**

PUNCHIE

As you might have guessed from the title, this is based on Punch and Judy. The aim is to help the policeman rescue the baby by passing through a variety of screens avoiding dangers like flying sausages..... **£7.95**

BOULDERDASH by ORPHEUS

The MSX version of this game was eagerly awaited and with good reason. It's superb arcade action, furiously fast, but requiring some planning and a lot of quick thinking. The graphics are excellent.....

£6.95

SEE PAGE 17

MAILER*

A program to handle the chore of producing a mailing list. The information stored in the program can be searched and printed according to name, street, town, area, and so on.....

£14.95

MST-CALC

A comparatively simple spreadsheet, which should appeal to the home user, this program lets you get straight into using the program, so you don't have to spend half your time setting it up.....

£14.95

STOCK CONTROL*

Use this program to keep track of product stock levels, suppliers and so on. Set your own re-order levels. Up to 200 items can be examined at any one time, so you always know exactly where you stand.....

£14.95

MORWOOD

CALCULATION 1

Three cassettes with a program on each make up this colourful and cheerful educational package. A four to eight year old's ability to count, add and subtract are all put to the test.....

£9.95

CALCULATION 2

Five to eight year olds will benefit from the exercises on the three colourful programs in this package. Basic addition and subtraction skills are tested using counting, sequences and a grid.....

£9.95

INTRODUCTION TO NUMBERS

Designed for four to seven year old children, these three programs help to develop basic numeracy skills using counting – first very simply, and eventually using up to 120 objects.....

£9.95

MEMORY

Three games on three cassettes which are designed to help five to eight year old children develop their memory. The program uses both simple memory tests and also associative techniques involving shapes and objects.....

£9.95

REASONING

Values are given to particular objects, shapes or colours and the five to eight year old child must calculate the result of an equation using these symbols. Graph co-ordinates are also taught on the last of the three tapes.....

£9.95

REFLEXES

The three programs in this set aim to develop a five to eight year old's perception and spatial ability – that is, the co-ordination of mental and physical ability – using numbers, letters and simple objects.....

£9.95

ANTY

It's unusual for an ant to become a hero, but that's what happens here. In your never-ending quest for fruit you wind up climbing trees, in constant danger of being on the wrong end of the insecticide.....

£6.95

PANIC JUNCTION

It's a tough job being a signalman, especially when your signal box is like a maze, and you've five trains to control at once, all of them hell bent on derailment or collision. Not for the nervous or lazy.....

£6.95

CANNON FIGHTER

Wave upon wave of enemy tank are moving towards you. As the only gunner left you must aim carefully with your cannon. Both distance and direction must be properly controlled if you're to fight another day.....

£6.95

SUPERMIND

An interesting variation on the Mastermind theme. You have to guess which object a ship has in its hold, by selecting the same objects with a doddside crane. A real brain teaser.....

£6.95

SUPERMAZE

Mazes are hard enough to solve as it is, but even tougher when you can see only part of it, and it's a race against the clock. Fortunately the graphics are attractive, so it's fun even if you lose.....

£6.95

SUPER PUZZLE

A computer version of the popular sliding block puzzles, you can choose from a range of cute characters. This one is especially suitable for younger children, and helps to develop visual awareness.....

£6.95

PATIENCE

This is, of course, the time-honoured card game – except that this time you can't cheat! It's a very accurate version – unlike some others – quick and easy to play, and full of friendly messages.....

£6.95

BATTLE FOR MIDWAY by PSS

A true reconstruction of the famous Pacific sea battle, this strategy game features three levels of play, six different speeds and a number of exciting arcade game sequences.....

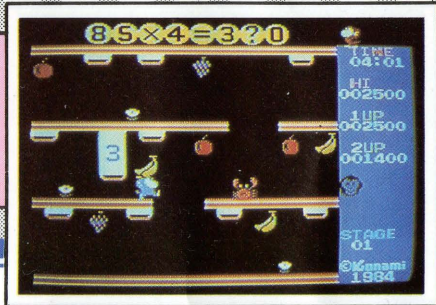

£9.95

SEE PAGE 17

MONKEY ACADEMY by KONAMI

A fun game with an educational content. Your task is to help the monkey find the right number to complete a sum, by leaping around the various levels and avoiding nasty crabs. Several difficulty levels are available **£14.95**

SEE PAGE 9

FAIRY*

This amusing game consists of four screens each infested with wildlife which must be cleared away, including caterpillars, rats, and spiders. The graphics are detailed and bright, and there's even a pleasant tune **£7.95**

PICASSO*

A paintbox program which allows you to create pictures and save them to tape. Because the image is stored as a screen dump, and not in BASIC, it's possible to work on two pictures at the same time **£9.95**

PINEAPPLIN*

Cheerful graphics show a jaunty sailor desperately collecting pineapples, so that he has enough energy to make it across a bridge to the next screen. There are ten screens in all, none of them very easy **£7.95**

OCEAN

HUNCHBACK

In the guise of Quasimodo you must hop across the battlements to rescue the fair Esmerelda. That's fair enough, but the guards have other ideas and by about the fifth screen things get really tough! **£6.90**

ORPHEUS

BOARDGAMES

Three favourites in one package. You can play an accurate game of darts, challenge the computer to a game of darts, or play a two- or three-handed version of Reversi, known as Triversi **£4.95**

BOULDERDASH

The MSX version of this game was eagerly awaited and with good reason. It's superb arcade action, furiously fast, but requiring some planning and a lot of quick thinking. The graphics are excellent **£6.95**

ELIDON

An arcade adventure with 300 locations, the story revolves around a fairy who must brave the forest to find seven magical flowers, water them with a magic potion and then make them into a garland **£8.95**

THE YOUNG ONES*

..... **£7.95**

PSS

LES FLICS

Based on the infamous Pink Panther, this is a game of anning theft, with nine buildings to rob, each containing a variety of strange objects, whose purpose is not always as obvious as it seems **£7.95**

MAXIMA

This is Space Invaders revisited—one of the few versions of the infamous game available on MSX machines. It's actually better than the original with more colour and great sound effects **£7.95**

TIME BANDITS

Your aircraft is under attack from airships, bi-planes, jets and spaceships. But you must defend the convoy of trucks, and yourself, at all costs. Great graphics in this fast game **£7.95**

CHAMP

A complete package for machine code programmers. Champ combines an assembler with a machine code monitor and debugger. Unusually, it's all supplied in one completely integrated system **£12.95**

BATTLE FOR MIDWAY

A true reconstruction of the famous Pacific sea battle, this strategy game features three levels of play, six different speeds and a number of exciting arcade game sequences **£9.95**

QUICKSILVA

THE SNOWMAN

Based on the book by Raymond Briggs, the aim is to collect enough snowflakes to build the snowman. Then you have to collect eyes, scarf and so on. It's attractive, varied and non-violent fun **£7.95**

BOOGA-BOO (THE FLEA)

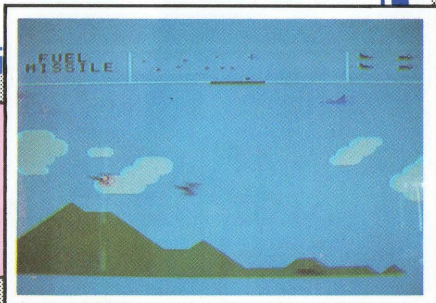

It may seem strange, but fleas can be quite appealing. Certainly the one in this game is pretty cute, although the dragon fly thinks he looks more like lunch. A simple but entertaining game **£7.95**

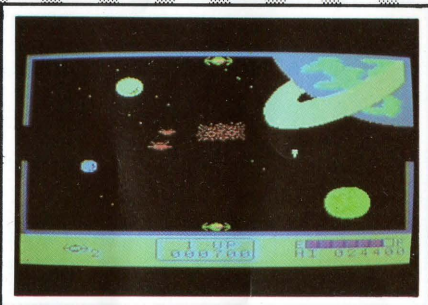

ANT ATTACK*

Having struggled across the desert to the city of Anteschur your job is to rescue people. You move them around the city which is shown in fabulous 3-D with four different views available at all times **£7.95**

TIME BANDITS by PSS

Your aircraft is under attack from airships, bi-planes, jets and spaceships. But you must defend the convoy of trucks, and yourself, at all costs. Great graphics in this fast game **£7.95**

SUPER CROSS FORCE by SPECTRAVIDEO

A real shoot-'em-up alien zap game. You, or you and a friend, control two spacecraft, one at the top of the screen and one at the bottom, and the simple aim is to waste as many aliens as possible..... **£7.95**

FRED*

Fred is a latterday Indiana Jones—an archaeological hero who ventures deep into tombs in search of treasure. But he needs your help to climb the ropes and ladders of this first-rate platform game..... **£7.95**

A

RITTOR MUSIC

PSG MUSICWRITER

This program pushes the sound chip in your micro to its limits. A wide variety of sounds can be created, and tunes composed—a musical version of a word processor..... **£24.95**

R

ODYSSEY K

Turn your computer into a simple musical instrument. You play a tune and the micro plays it back to you. And to help you, the screen shows an excellent representation of an organ keyboard..... **£11.95**

R

SHIELD

O LEVEL CHEMISTRY EXAMINER

This program randomly sets 'O' Level exam papers, although you have control over the general content. As with other programs, this one will analyse your results and estimate a grade..... **£9.95**

E

O LEVEL MATHS EXAMINER

The three main areas covered in this program are algebra, trigonometry and geometry. Like the other programs it can be tailored to match any current syllabus..... **£9.95**

E

O LEVEL PHYSICS EXAMINER

Covering mechanics, energy and heat, and electricity and radioactivity, this program will randomly set 30 to 40 questions—you choose how many, and which subjects you want to cover..... **£9.95**

E

SILVERSOFT

AACKOBASE IDS*

This database is supplied on both 3.5 inch disc and cassette, with excellent documentation. It's a professional product, and especially useful for holding names and addresses..... **£39.95**

B

AACKOTEXT IDS*

An excellent, sophisticated yet easy to use word processor. Supplied on both disc and cassette, it's capable of reading Aackobase name and addresses files for producing mailshots easily and quickly..... **£39.95**

B

SOFTWARE PROJECTS

MANIC MINER

Deep below Surbiton are 20 caverns containing platforms filled with assorted nasties and objects you must collect. Original and imaginative, *Manic Miner* is one of the best of its type..... **£7.95**

A

JET SET WILLY

After a particularly wild party you must dash around the house picking up the empties. But the house has turned nasty, and ordinary objects are dangerous. It all makes for an original and exciting game..... **£7.95**

A

HARVEY SMITH'S SHOW JUMPER*..... **£7.95**

A

JET SET WILLY II*..... **£7.95**

A

SPECTRAVIDEO

SUPER CROSS FORCE*

A real shoot-'em-up alien zap game. You, or you and a friend, control two spacecraft, one at the top of the screen and one at the bottom, and the simple aim is to waste as many aliens as possible..... **£7.95**

A

PUZZLEBRICKS*

A square on the screen is divided into nine smaller squares. Eight are numbered in random order, the remaining one is a hole. As with a sliding block puzzle you must get all eight numbers in the correct order..... **£6.95**

A

ROGER RUBBISH*

Armed only with an interstellar vacuum cleaner (!) the intrepid Roger attempts to keep the world free from the nuclear waste falling out of the sky. Should he collect 25 pieces he makes it to the next level..... **£6.95**

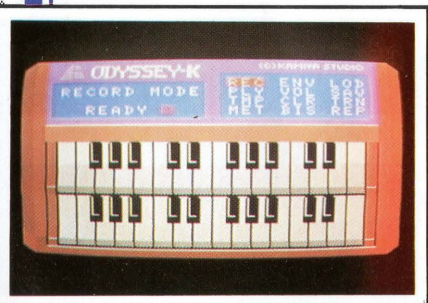

A

SQUASH*

This game will be familiar to veteran computer games players. It's the old favourite where you manipulate a ball to stop the bouncing ball from getting past you. For one player against the computer..... **£6.95**

A

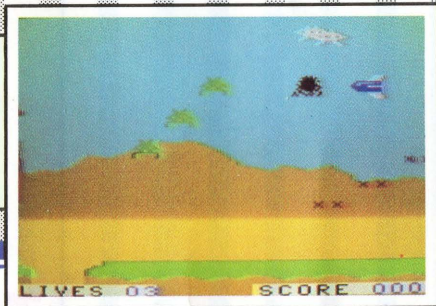

ODYSSEY K by RITTOR MUSIC

Turn your computer into a simple musical instrument. You play a tune and the micro plays it back to you. And to help you, the screen shows an excellent representation of an organ keyboard..... **£11.95**

CASTLE COMBAT by SPECTRAVIDEO

Started outside the castle in your space shuttle you must shoot down a whole wave of enemy craft. This allows you to enter, and you're then up against more enemies and electrified walls **£6.95**

TENNIS*

Essentially a two-player version of the squash game for playing when you've got company. Once again you must smash your opponent getting the ball past you..... **£6.95**

CASTLE COMBAT*

Started outside the castle in your space shuttle you must shoot down a whole wave of enemy craft. This allows you to enter, and you're then up against more enemies and electrified walls **£6.95**

SMASH*

This is another familiar game, this time a version of *Breakout*, where you must bounce a ball against several rows of bricks to smash them. Each time you demolish a wall it's replaced by a larger one..... **£6.95**

SEA HUNTER*

In the first screen, Felix goes hunting killer ducks which swoop down on top of him. He must kill them all to progress to the next screen where he's faced by equally mean and hungry barracudas..... **£6.95**

STELL

MATHS INVADERS

Maths doesn't have to be boring. This program combines fun and learning in a game which teaches the basics of numeracy while keeping young children glued to the screen..... **£7.95**

TASMAN

TASWORD

A sophisticated word processor which cleverly redefines the characters to give a 64 column screen. With a number of professional features, such as instant help menus, and imbedded control characters..... **£13.90**

TERMINAL

LAZY JONES

A whole houseful of games rolled into one. Help Lazy Jones as he grapples with a variety of colourful computer games, hidden in the rooms of an hotel. Superb, multi-level fun..... **£8.95**

TOSHIBA

3D GOLF

Two different views are presented – the 3-D view from your current position and an aerial view of the hole. There are nine holes in all, each presenting a real challenge in this life-like simulation..... **£7.95**

BATTLESHIP CLAPTON

This is not a game for the faint-hearted. It owes its concept to *Space Invaders* but moves at terrifying speed. You won't have time to rest as hordes of alien ships scream from the top of the screen..... **£7.95**

PINBALL

Forget about the arcades, this game brings the classic into your own home, in an accurate and colourful simulation. There are two skill levels, and all the clatter and clang of the real thing..... **£7.95**

POLAR STAR

As you roar into the 3-D landscape, alien ships zoom up from the horizon. Zap them before they zap you, and if you make it through you get the chance to shoot the mothership in this exciting space game..... **£7.95**

PYRAMID WARP

A fairly straightforward game, but one that's hard to stop playing, *Pyramid Warp* features yet more tenacious aliens flying to spectacular and colourful deaths on the end of your laser..... **£7.95**

VIRGIN

SORCERY

One of the best games around, *Sorcery* combines a fast action arcade game with the cunning and strategy of an adventure. Colourful and detailed screens, and a lot you have to find out for yourself..... **£8.95**

XYNON

STOCK CONTROL

Ideal for the small or medium size business, this will cope with up to 2000 products, giving you a constant update on stock levels, supplier records and product summaries..... **£49.95**

SORCERY by VIRGIN

One of the best games around, *Sorcery* combines a fast action arcade game with the cunning and strategy of an adventure. Colourful and detailed screens, and a lot you have to find out for yourself..... **£8.95**
