ICARUS PROTOCOL

Icarus Emergency Final Protocol

Use only in extreme cases

- Environmental disaster
- Nuclear attack
- Global pandemic
- Mutant apocalypse
- Xenomorphic threat
- Huge meteor collision

Instructions

- Evacuate the population to bunkers 0-5
- Select a Veteran Soldier Unit.
- Equip The Volunteer with a "Soldier Pack"
- Go to starting area 136.
- Register your BIO-ID in RG.Terminals
- Locate & Activate the 4 Icarus Terminals
- Pray what you know.

Soldier Units

Soldier units are meta-human with great resistance.

They can withstand high doses of radiation, perform large displacements on foot and stay awake for weeks.

The "Soldier Pack"

SPAS-12 Shotgun

Your main and only weapon.
Kill Mutants pressing the fire button.

Geiger Counter

The Geiger marker will indicate the degree of radiation in each zone.

The green indicator will show the safe areas, while the amber and red colors will mark contaminated areas.

Try to spend the minimum necessary time in them.

Mini Map

The "soldier Pack" includes an electronic map. It will indicate the path traveled and it will mark in a different color the important locations you have visited.

Activate the map by pressing the "m" key.
